Special instructions for the submission:

- Submit a good-quality video recording of you playing your instrument. (This does not have to be a solo video) Your skill level is not necessarily what we are looking for. All levels are welcome at Wooten Woods. We are more interested to know that you actually play and are serious about music and your instrument.
- Submit a word document focused on these three topics:
  1. The past: Why are you a musician and what is your musical background?
  2. The present: What is your current situation now as a musician and level of commitment. Are you studying with a teacher, self-taught and do you gig?
  3. The future: What are your personal or career musical goals and how do you plan to achieve them?
- There are no restrictions on how long or short this document should be. However, it should be well thought out and from the heart. **\*\*Above all, be yourself, be honest and be CREATIVE!**
- **\*\*\*please note that first consideration will be given to applicants who have never attended one of the programs, however that is not the final determining factor!**

I hereby agree that the above information and the information within my entire submission was submitted by me, as applicant.

I also understand that if awarded a scholarship it does not include travel or other expenses incurred. (Meals included in the tuition and shared cabins or areas to pitch tents are provided for all participants. More details on [www.vixcamps.com](http://www.vixcamps.com).)
